Animal Care Charges

In order to recover the cost of animal care, the SBS's Animal Research Facility charges a fee for each cage per week.

1. The charges begin the week that the animals are housed in the facility.
2. The charges stated here exclude any animal testing cost if required by the research or attending veterinarian.
3. Please submit the Animal Requisition Form to the facility management before purchasing animals from external vendors.

The rates are summarized in the following table and are valid until 31st December 2016. *Increase in the charges is expected when the Animal Research Facility reopens in 2018.
